

# Investor Presentation

August 10, 2021

CONFIDENTIAL

# Disclaimer

This presentation is for informational purposes only and contains general information about the activities of Ascent Resources, LLC and certain of its subsidiaries (collectively, "Ascent") that does not purport to be complete. Statements in this presentation are made as of the date hereof unless stated otherwise herein, and the delivery of this presentation at any subsequent time shall not under any circumstances create an implication that the information contained herein is correct as of such subsequent time. Ascent is under no obligation to update or keep current the information contained in this presentation. No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or opinions contained herein and any reliance you place on them will be at your sole risk.

Drilling locations or inventory have not been risked by Ascent. Actual locations drilled and reserves ultimately recovered may differ substantially from estimates provided herein. Factors affecting production forecasts and ultimate hydrocarbon recovery include the scope of the ongoing drilling program, which will be directly affected by the availability of capital, drilling and production costs, availability of drilling services and equipment, drilling results, lease expirations, transportation constraints, regulatory approvals and other factors, including geological and mechanical factors affecting hydrocarbon recovery rates. Estimates of reserve potential may change significantly as development of Ascent's natural gas, oil and natural gas liquids assets provide additional data. Production forecasts and expectations for future periods are dependent upon many assumptions, including estimates of production decline rates from existing wells and the undertaking and outcome of future drilling activity, which may be affected by commodity price declines or drilling cost increases.

Market and competitive position data in this presentation has generally been obtained from industry publications and surveys or studies conducted by third-party sources. There are limitations with respect to the availability, accuracy, completeness and comparability of such data. Ascent has prepared this presentation based on information available to it, including information derived from public sources that have not been independently verified, and no assurance can be given of its accuracy or completeness. Certain statements in this presentation regarding the market and competitive position data are based on the internal analyses of Ascent, which involve certain assumptions and estimates. These internal analyses have not been verified by any independent sources and there can be no assurance that the assumptions or estimates are accurate.

This presentation is not an offer to sell, or the solicitation of an offer to buy, any securities or debt of Ascent in any jurisdiction, and nothing in it should be construed as an offer, invitation, or recommendation in respect of securities. Ascent, its affiliates and advisors do not accept any liability whatsoever for any loss howsoever arising, directly or indirectly, from the use of the information presented or otherwise in connection with the presentation.

## **Non-GAAP Financial Measures**

This presentation includes financial measures that are not in accordance with U.S. generally accepted accounting principles ("GAAP"), including, but not limited to free cash flow and adjusted EBITDAX. While Ascent believes that such measures are useful, they should not be used as a replacement for financial measures that are in accordance with GAAP. Please see additional disclosures in our financials available at [www.ascentresources.com](http://www.ascentresources.com).

# Forward-Looking Statements

This presentation, and oral statements made in connection with this presentation, contain forward-looking statements, within the meaning of US federal securities laws. Forward-looking statements express views of the Company regarding future plans and expectations. They include, but are not limited to, statements that include words such as “may,” “could,” “would,” “should,” “believe,” “expect,” “anticipate,” “plan,” “estimate,” “target,” “project,” “plan,” “intend,” and similar words or expressions.

Forward-looking statements in this presentation include, but are not limited to, statements regarding future operations, business strategy, and past, present, or future values of the anticipated reserves, cash flows, income, costs, expenses, liabilities, and profits, if any, of the Company. These statements are based on numerous assumptions and are subject to known and unknown risks and uncertainties. These assumptions may not materialize. Actual future results may vary materially from those expressed or implied in these forward-looking statements, and our business, financial condition, and results of operations could be materially and adversely affected by numerous factors, including such known and unknown risks and uncertainties. As a result, forward-looking statements should be understood to be only predictions and statements of our current beliefs; they are not guarantees of performance.

All of the forward-looking statements in this presentation are qualified by risks related to our ability or inability to, among other things:

- execute on our financial strategy and access the capital and financing required to achieve our business plan;
- replace our reserves with new reserves and develop those reserves;
- execute on the assumptions regarding our drilling and development plan;
- manage increases in the cost of, fluctuation in availability of, and competition for, goods, services, and personnel;
- acquire additional leasehold or fee mineral acreage;
- manage changes in, and volatility of, natural gas, oil and natural gas liquids prices and the potential impact of such changes on our asset carrying values;
- convert our reserves into production on an economic basis;
- successfully implement the latest horizontal drilling and completion techniques;
- effectively utilize technology, including 3D seismic data, to identify future reserves and execute our drilling and development plan;
- cure any defects impairing title to our properties;
- mitigate credit risk posed by significant customers and other participating owners;
- access third-party transportation facilities and infrastructure;
- manage conflicts of interest with our directors and officers;
- mitigate uncertainty regarding derivative instruments and related regulation;
- deal with possible regulatory responses or liability related to seismic activity in our area of operations;
- respond to shifting government regulatory requirements with respect to unconventional resource recovery, including hydraulic fracture stimulation and saltwater disposal;
- mitigate uncertainty regarding our reserve estimates and future operating results;
- accurately predict the timing and amount of our future natural gas, oil, and natural gas liquids production;
- manage operating risks, losses, and liabilities arising from uninsured or underinsured events;
- access water sourcing, distribution, and disposal systems;
- generate sufficient cash flow to pay fixed charges;
- deal with the imposition of additional taxes on natural gas, oil, and natural gas liquids exploration and development;
- control our operating expenses and other costs;
- navigate through general credit market and economic conditions;
- manage risks and cost of compliance with applicable laws and regulations, including environmental laws and regulations;
- respond to competition and litigation;
- maintain access to capital on terms acceptable to the Company and manage restrictions in our debt instruments;
- manage the effects of global pandemics, including the COVID-19 pandemic;
- meet our plans, objectives, expectations, and intentions contained in this presentation; and
- recognize and mitigate other risks to our planned objectives described herein.

The cautionary statements in this presentation expressly qualify all of our forward-looking statements. The forward-looking statements speak only as of the date of this presentation and undue reliance should not be placed on these statements. We disclaim any obligation to update any forward-looking statements after the date of this presentation.

# Premier Operator in the Utica Shale

- 

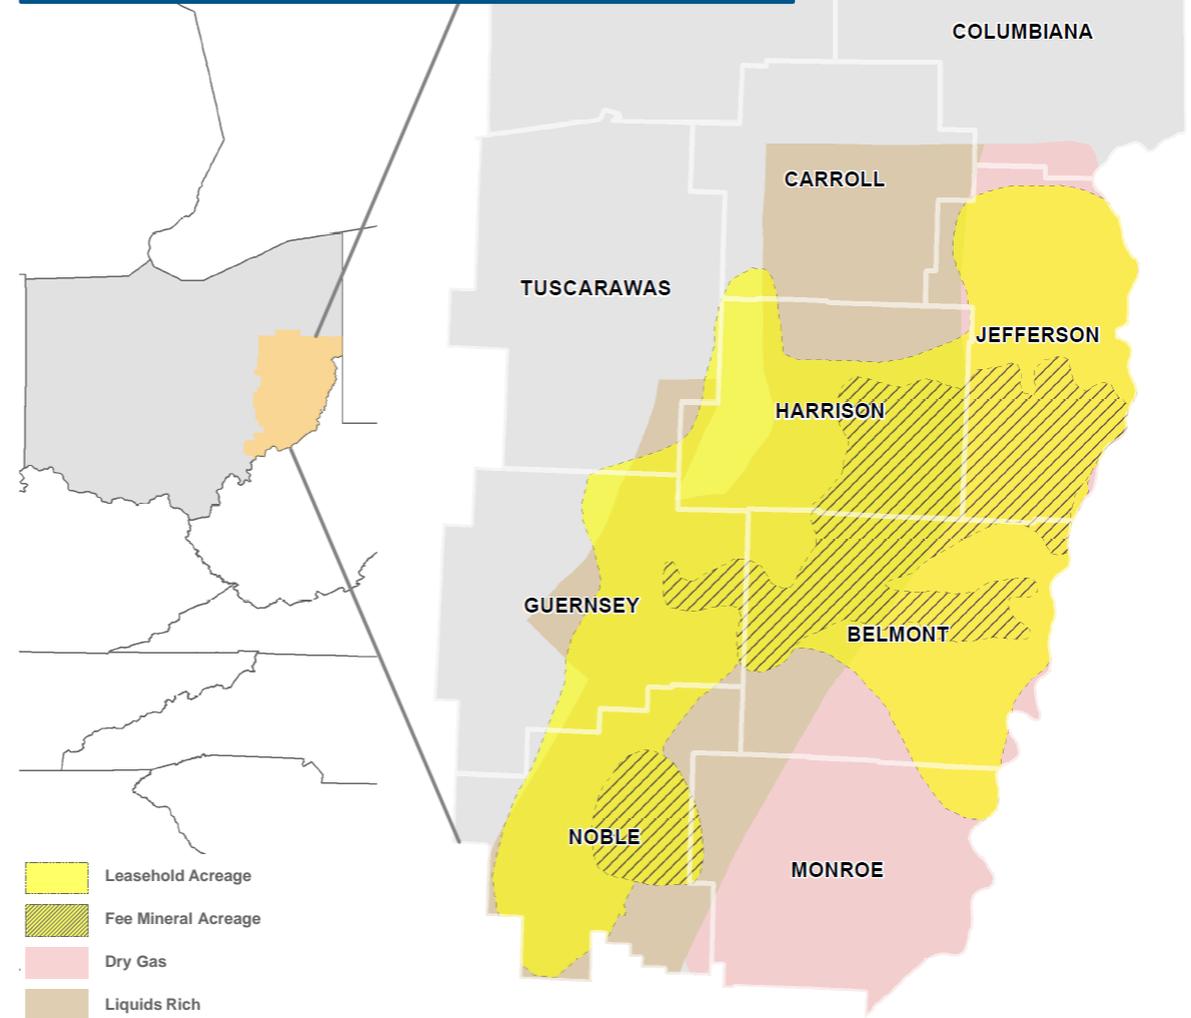

ESG focus and unwavering commitment to safety as our top priority at all levels
- 

Operational and technical excellence drives industry-leading metrics and execution
- 

Large, diverse asset base supports sustainable free cash flow
- 

Disciplined financial strategy and commitment to free cash flow generation support long-term value creation

Net Leasehold Acres:	261,400
Ascent Operated Minerals:	71,200
Third-Party Operated Minerals <sup>(1)</sup> :	7,200
Total Acreage:	339,800
Q2 2021 Net Production	1.95 bcfe/d

**One of the Largest Private Producers of Natural Gas in the United States**

1) Ascent only owns a royalty interest in such acreage.

# Clear Vision to Creating Maximum Value

## ESG - Leading with Intent

- Enduring focus on employee and contractor health and safety
- Focused on minimizing our environmental impact and supporting our local communities and employees
- Best operating practices and technology focus drive low GHG/Methane emissions intensity and future reductions
- Driving to achieve carbon neutrality by 2025

## World Class Resource and Execution

- Unique combination of rock quality, pressure and deliverability supports best-in-class paybacks, returns and capital efficiency
  - Highest average 12-mo cumulative gas production in North America at 6.0 bcfe per well
- Approximately 340,000 net acres offer hydrocarbon optionality and ~15 years of operated inventory capable of maintaining current production levels
  - Contiguous acreage position allows for operational control and longer lateral development (avg. of 13,000' for FY 2021)
  - Scale supports right-sized operations and allows us to capture available efficiencies
  - Mineral ownership reduces royalty burdens and enhances economics

## Peer-Leading Margins Drive Sustainable Free Cash Flow

- Economies of scale drive capital efficiencies, margins, and corporate returns
- Peer-leading LOE and G&A metrics<sup>(1)</sup> drive strong per-unit production margins
- Strategic FT portfolio offers flow assurance and access to premium out-of-basin markets (i.e. lower differentials)
- Lowest development costs in Appalachia at \$546<sup>(2)</sup> per lateral foot in Q2 2021 (\$611 in FY 2020)
- Generated \$38 million of FCF in Q2 2021 with guidance of \$100 to \$150 million for FY 2021, despite hedge position

## Strong Balance Sheet and Robust Liquidity Profile

- Focused financial strategy with no debt maturities until Q2 2024, and over \$1.15 billion of liquidity
- Free cash flow expected to be used to reduce debt until a 2.0x leverage target is achieved
- Disciplined commodity hedging program protects cash flow and reduces volatility

1) Second quarter 2021 LOE of \$0.12 per mcfe and G&A of \$0.07 per mcfe.

2) Development costs are inclusive of all location, drilling, completions and facilities costs.

# Setting the Course for a Sustainable Future

## Environmental

- Focused on reducing our environmental impact and minimizing emissions
- Strive to achieve carbon neutrality by 2025
- Committed to reducing freshwater use through optimization efforts (75% reuse in Q2 2021)
- Minimize surface impacts on the land by drilling longer laterals to reduce land disturbances in the local communities
- Leveraging our membership with AXPC, The Environmental Partnership, and the ONE Future Coalition to drive improvements and reduce emissions

## Social

- Commitment to diversity and inclusivity at all levels of the organization, with 25% of senior-level positions held by women
- Comprehensive safety program demands safety-first approach
- Over 3,200 volunteer hours made available annually to employees for community service
- Partnered with Switch Energy Alliance to promote energy education and reduce energy poverty throughout the world
- Great Place to Work™ certified for the past five years

## Governance

- Diverse and experienced 12 member Board consisting of 2 independent directors, the CEO and 9 members representing key equity investors
- Committed to sound corporate governance that includes an Audit, Compensation and Environment, Sustainability and Corporate Responsibility Committees
- Management compensation is aligned with a conservative balance sheet, consistent free cash flow generation and ESG excellence
- Cross-departmental Enterprise Risk Management Committee tasked with monitoring and mitigating risk

# Leading Controllable Cost Structure

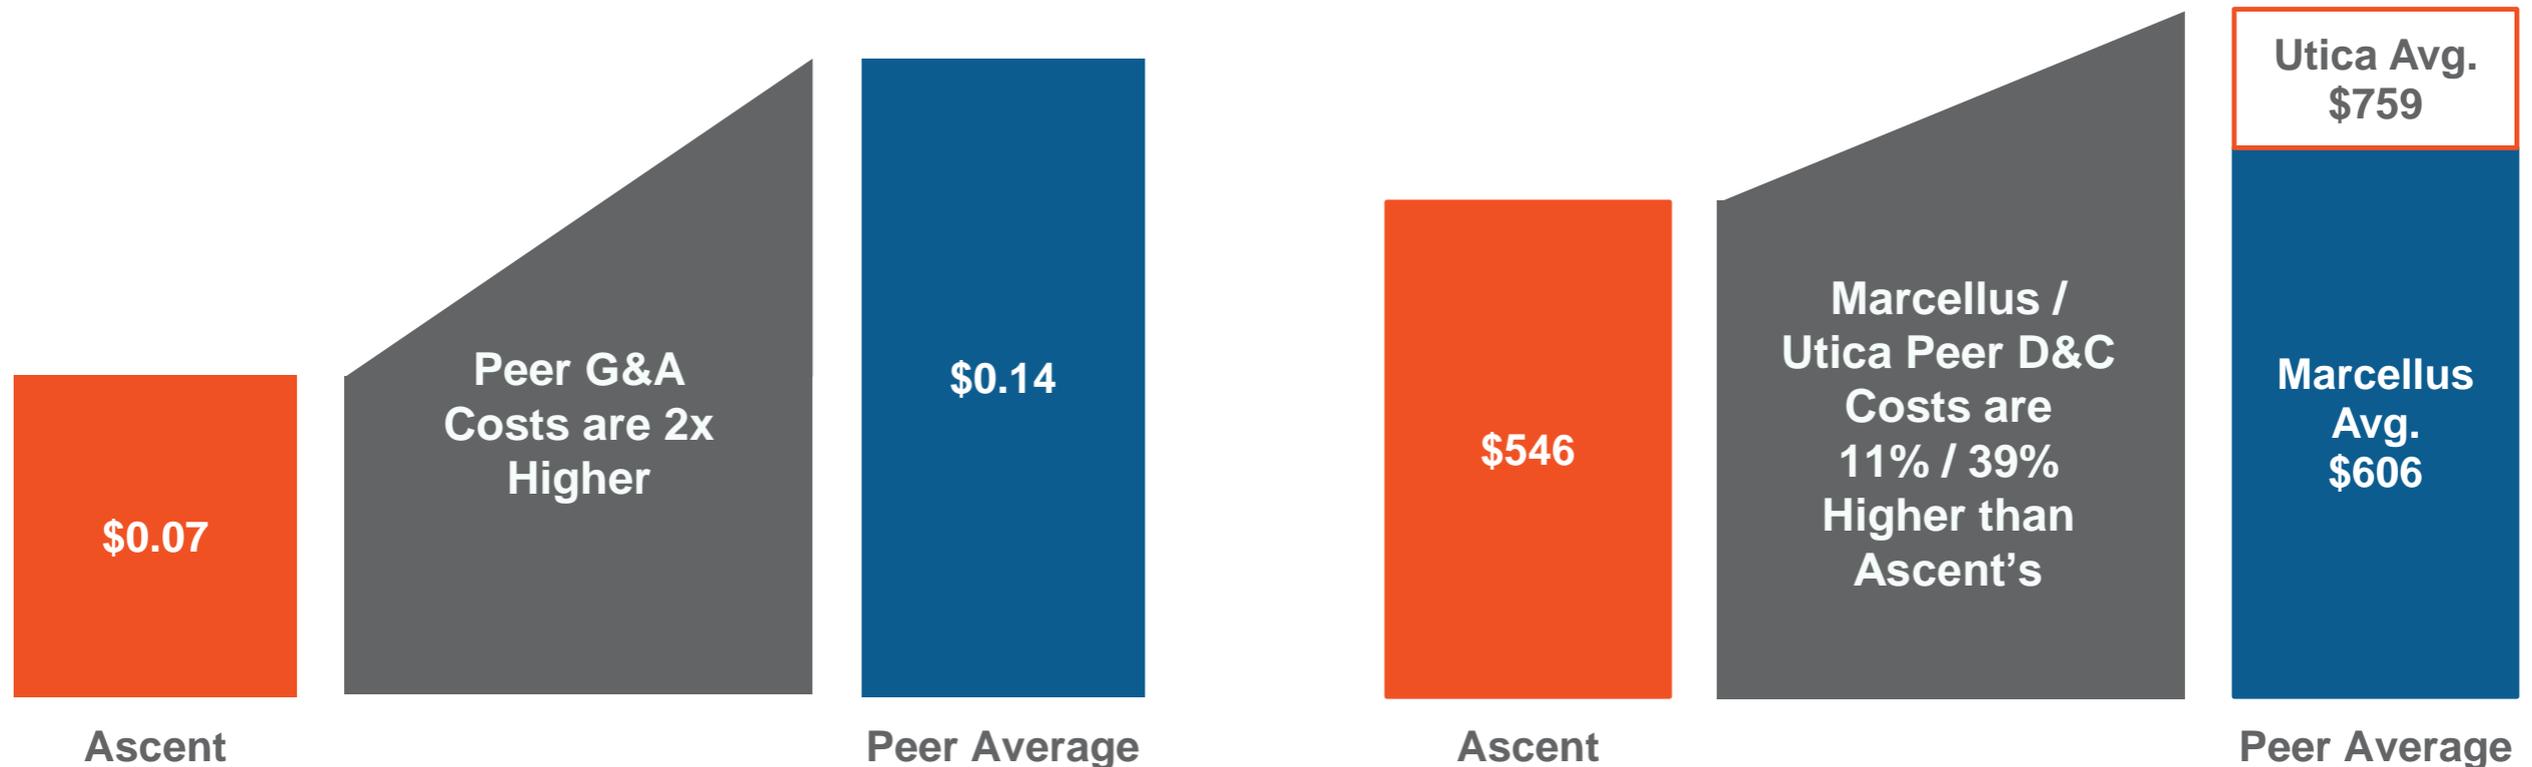

## Peer Leading G&A Cost Metrics

- G&A averaged \$0.07 per mcf during Q2 2021
- Focus on overhead cost improvements drives strong per-unit margins
- Well positioned to maintain / scale operations without adding additional employees

## Lowest Well Costs<sup>(1)</sup> in Appalachia

- Well costs averaged \$546 per lateral foot during Q2 2021
- Innovation and technological advances continue to drive sustainable and repeatable cost improvements
- Additional efficiency gains anticipated through our optimized drilling program and further reductions in non-productive time

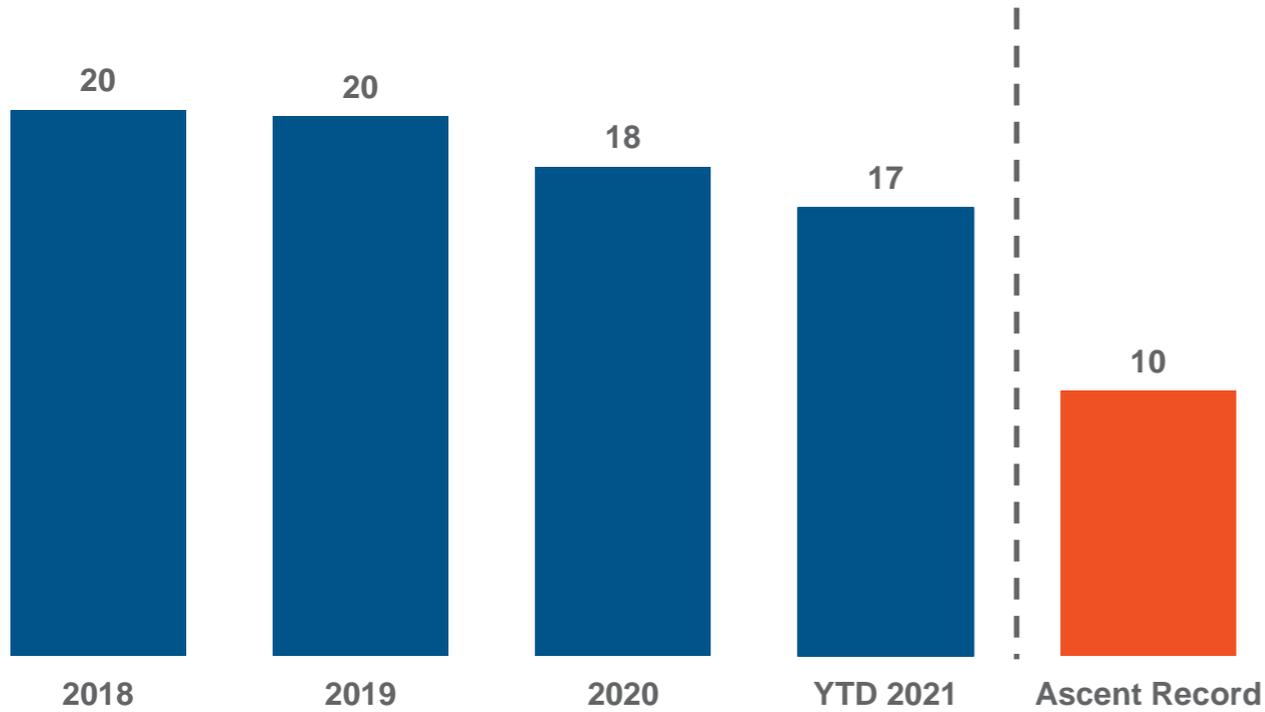

Note: G&A peers include AR, COG, CNX, EQT, GPOR, RRC, and SWN. Well cost peers include AR, EQT, GPOR, RRC, and SWN.

1) Wells costs include drilling, completions, facility and pad costs.

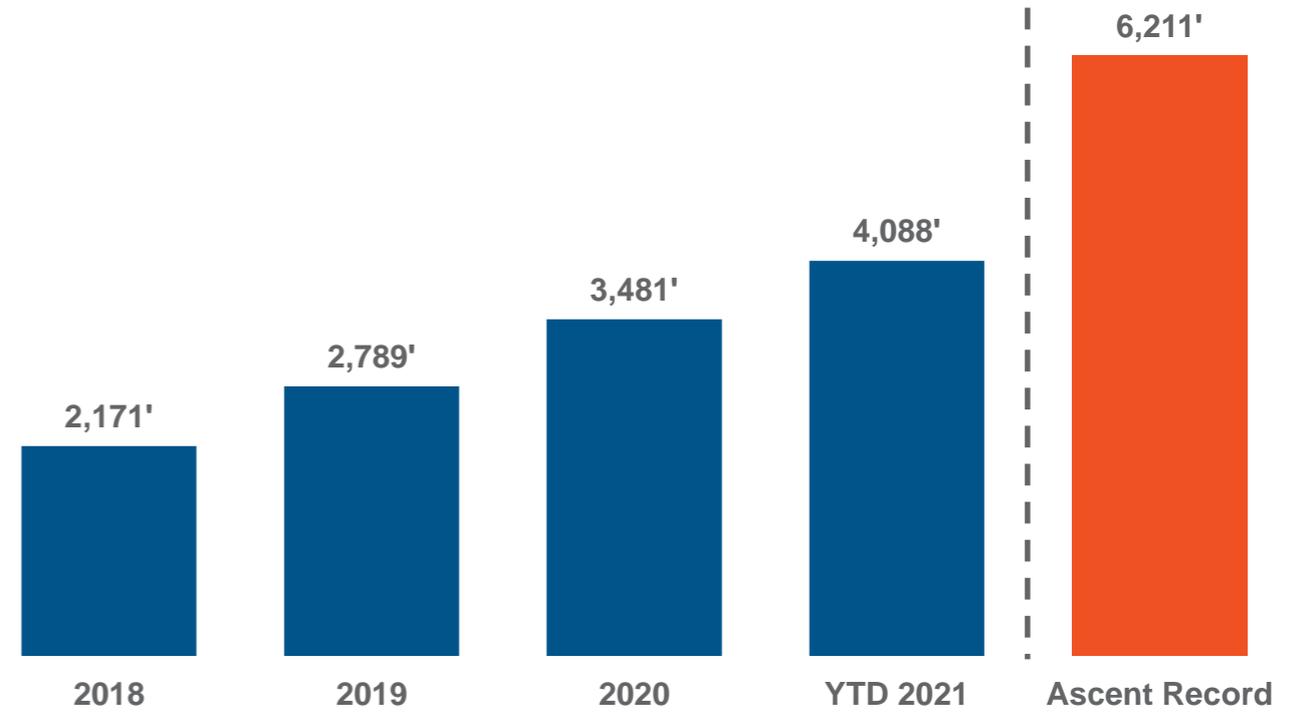

# Operational Execution Leads to Efficiency Improvements

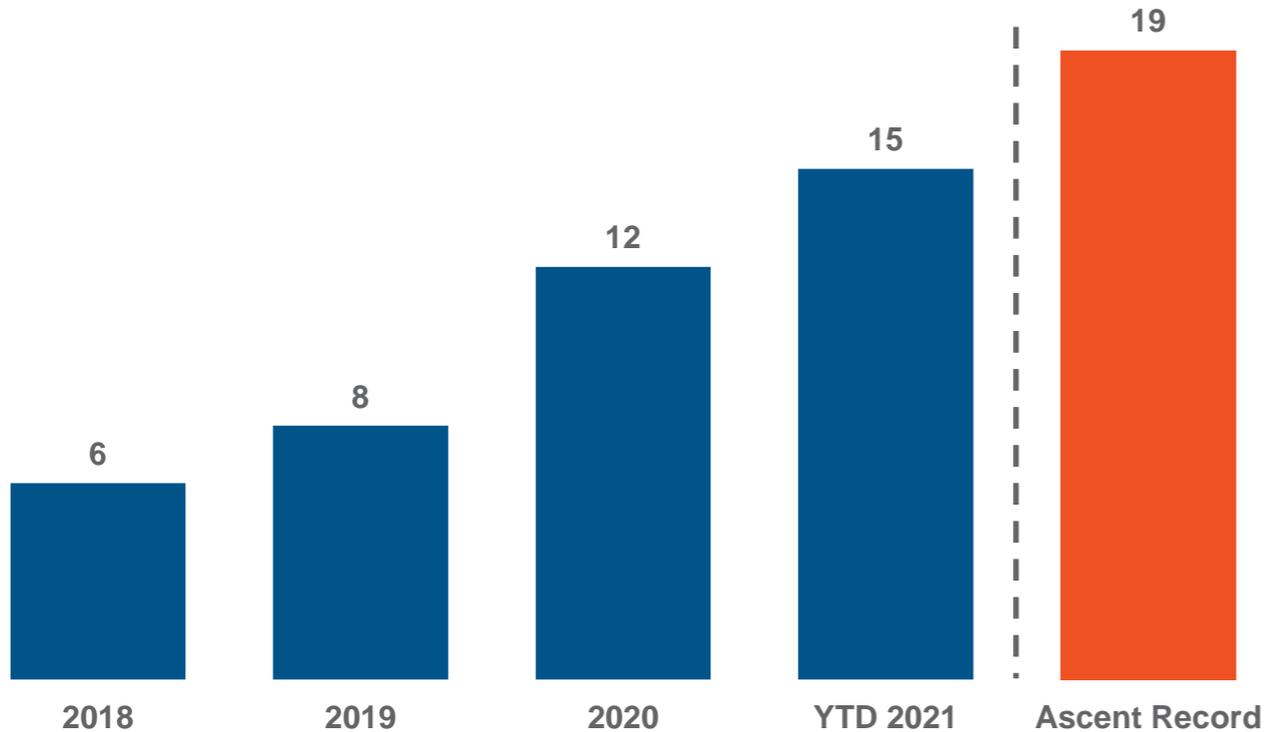

Spud to Rig Release Days Continue to Decline

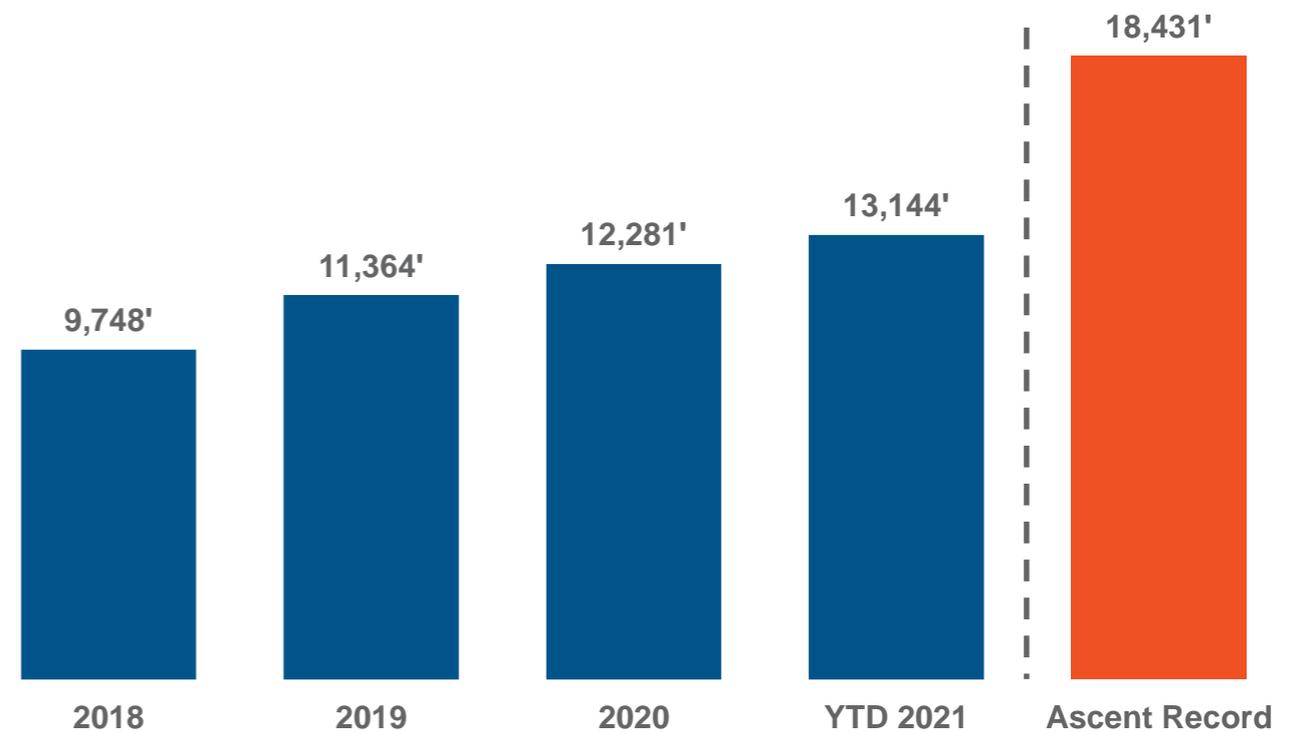

Consistent Increase in Lateral Feet Drilled Per Day

Completed Stages per Day Drives Differentiation

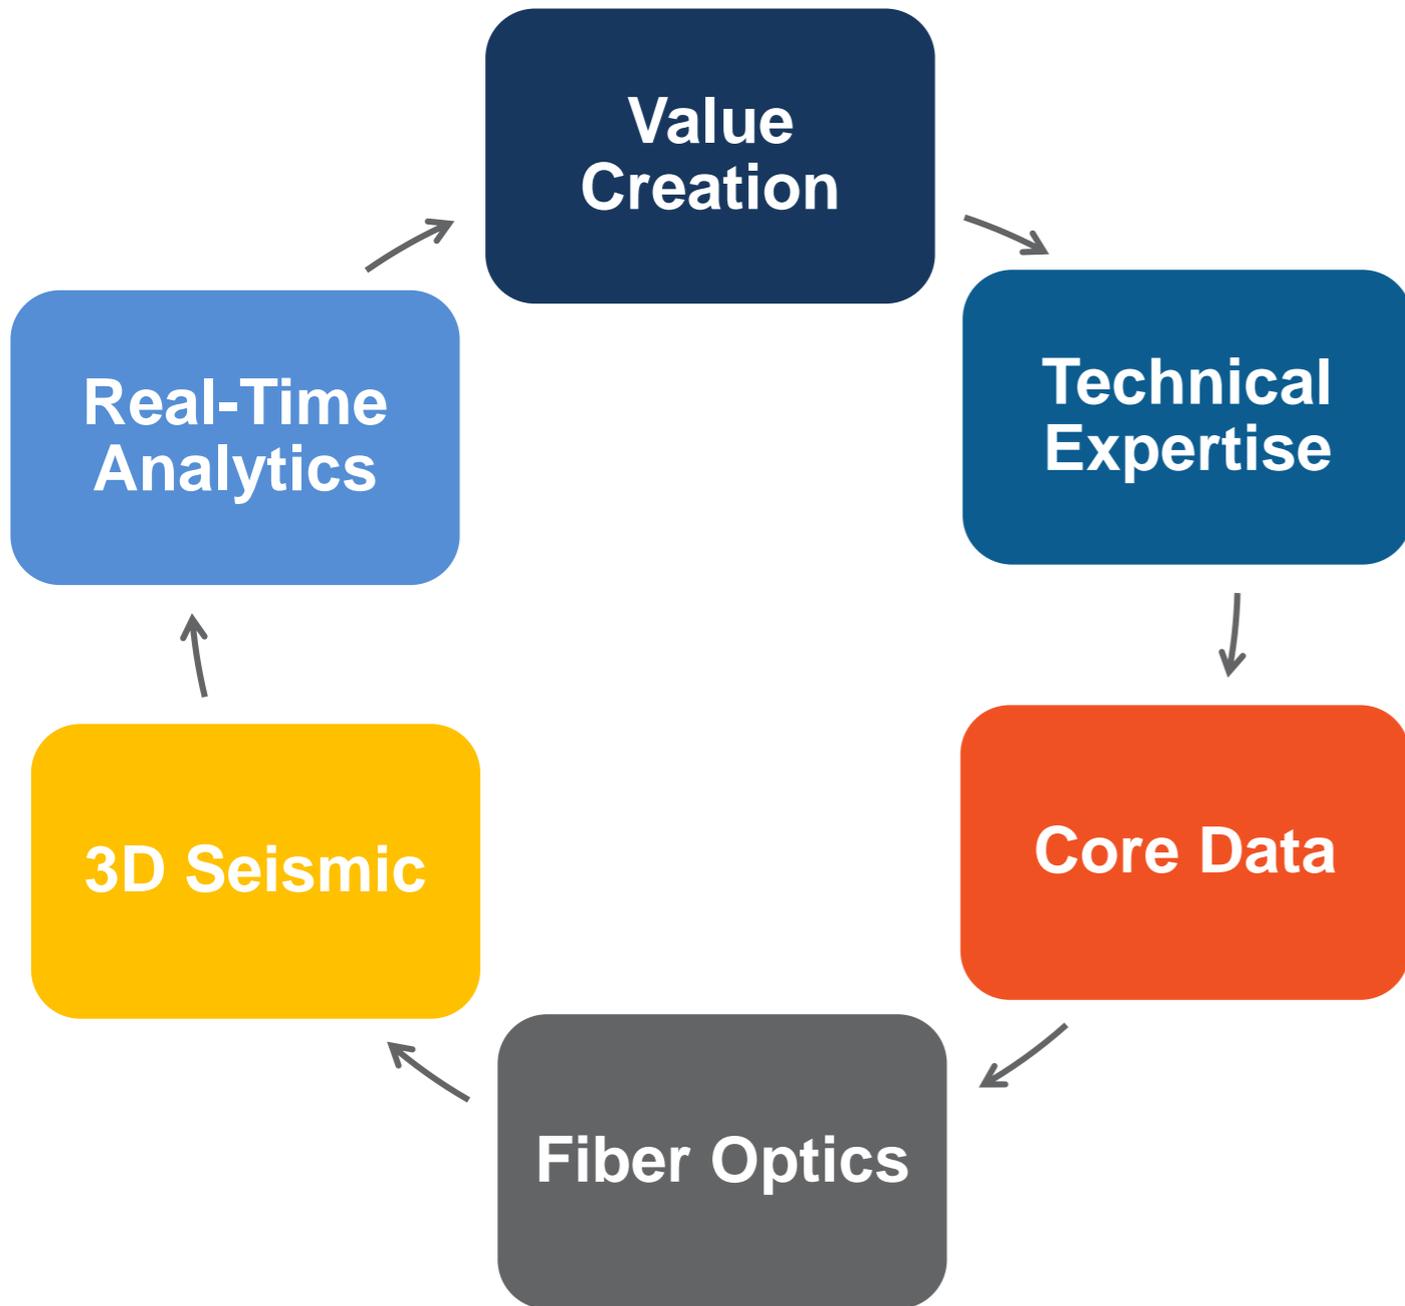

Lateral Length Increasing Through Development

Note: Annual operational metrics are based on full-year averages; Ascent records are based on single-well results.

# Creating Value Through Technology and Data

Comprehensive suite of core, petrophysical and proprietary 3D seismic data (covers 70% of acreage position)

Fiber optic installations have optimized drilling and completions

Cluster and stage efficiencies have driven optimal proppant distributions and water requirements at the lowest cost

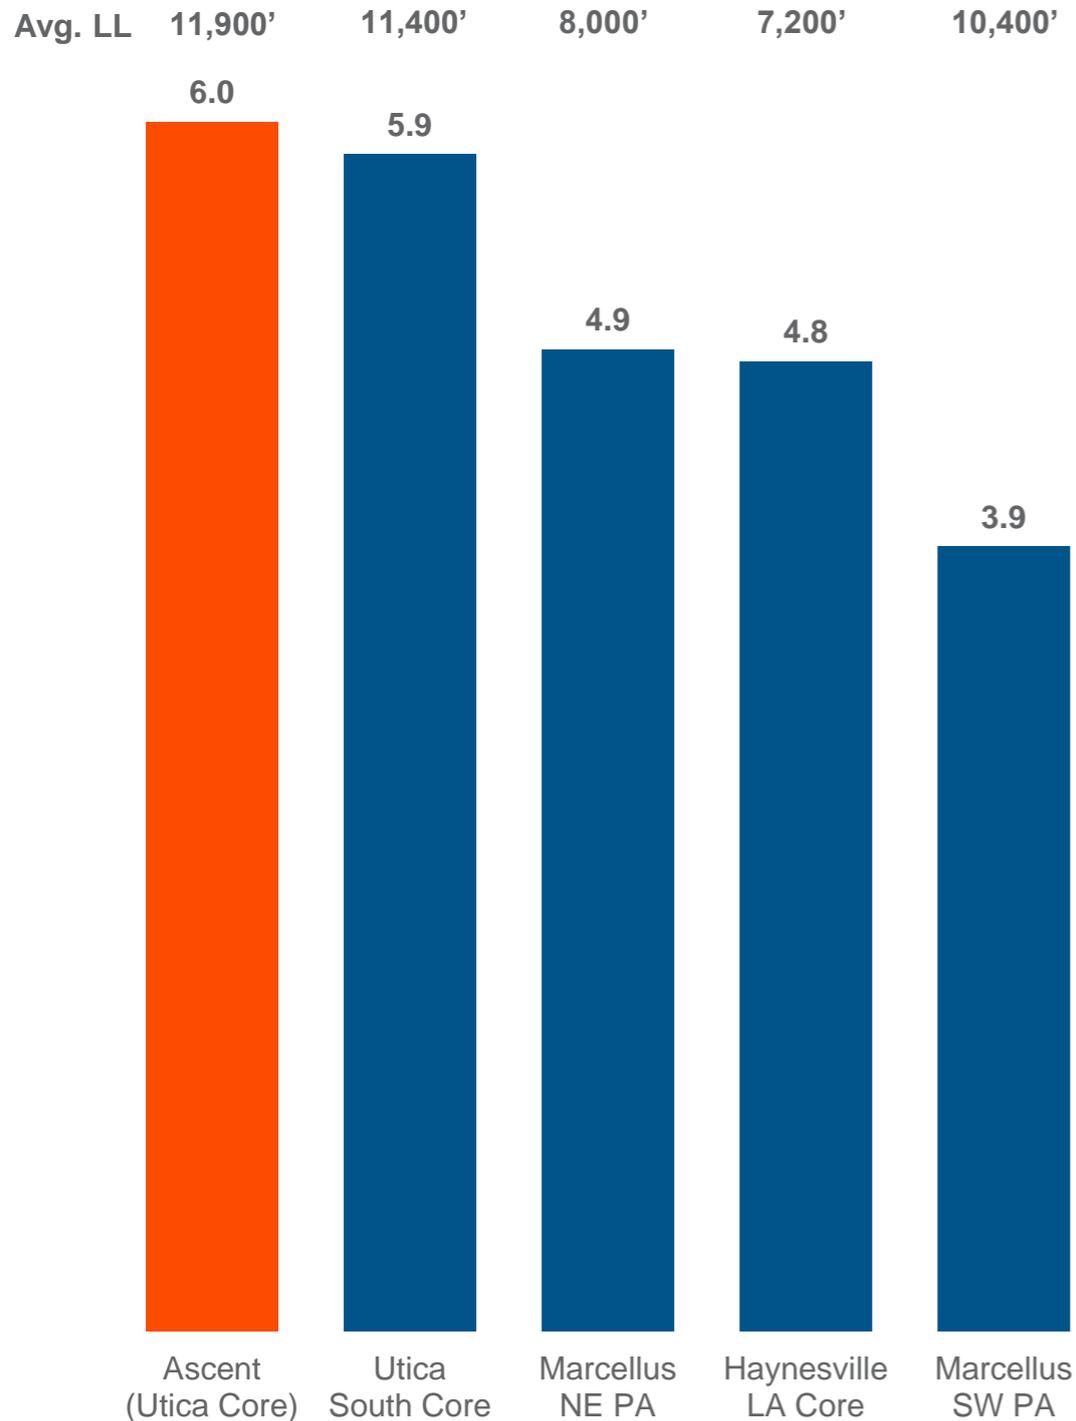

Drilling and completion data monitored in real-time and integrated to in-house database for analysis

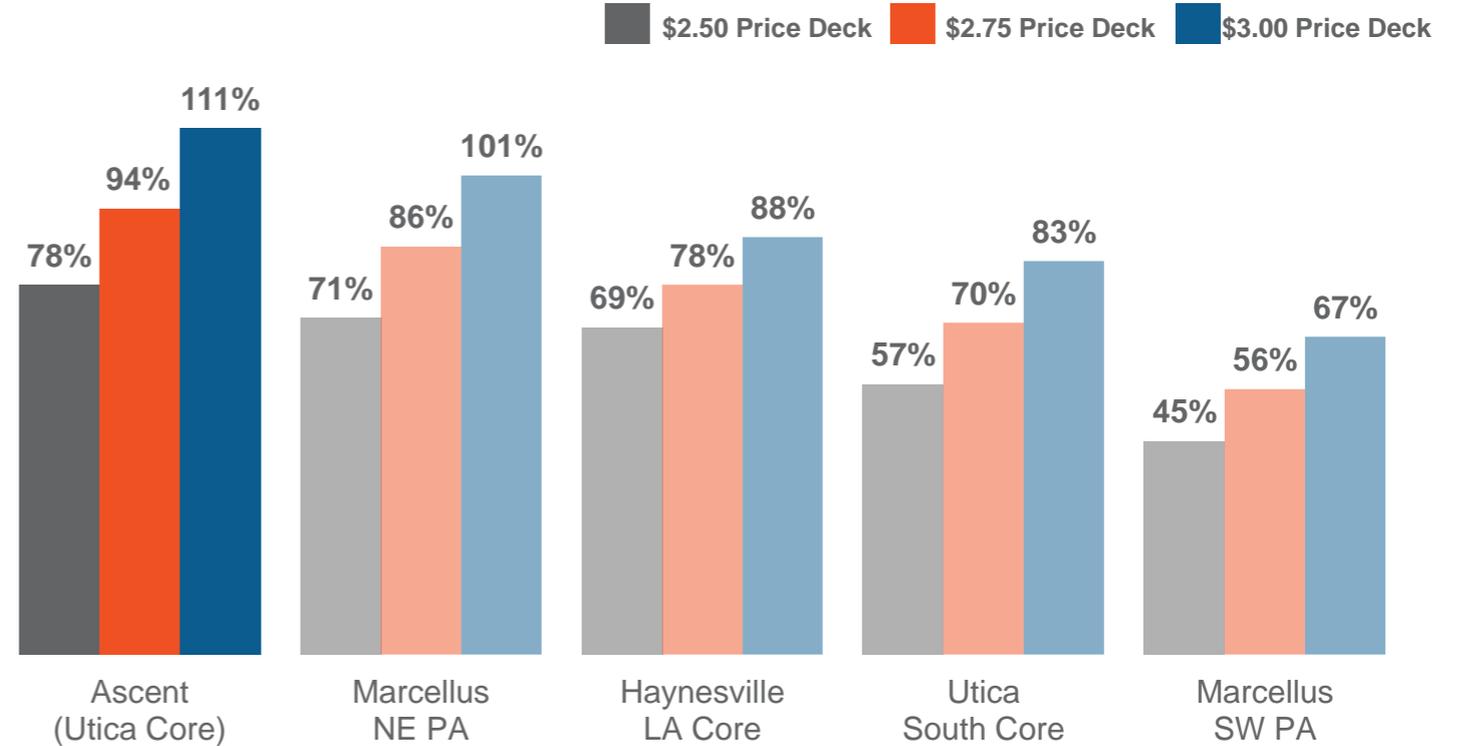

# Leading Capital Efficiency and Competitive Well Productivity Driving Paybacks

## Best First Year Production (bcfe per well)

## Highest 12 Month Paybacks in the U.S.

- Highest 12-month average cumulative gas production in North America
  - 6.0 bcfe of cumulative production in the Utica core within initial 12 months
- Homogenous geology, and operational planning / execution delivering longer average laterals than any other play
- Ascent's strong well productivity coupled with leading D&C cost structure and extensive mineral position accelerate well payout and maximize capital returns

# Diversified Transportation Portfolio Drives Peer Leading Price Realizations

- ✓ 2.1 bcf/d of gross firm transportation provides access to multiple physical markets with premium pricing
- ✓ Out-of-basin takeaway will continue to be a strategic asset, with egress becoming more constrained over time
- ✓ Existing third-party gathering and processing infrastructure supports development plan (i.e. no new projects needed to execute business plan)
- ✓ 2021 realized price projected at ~97% of NYMEX<sup>(1)</sup>

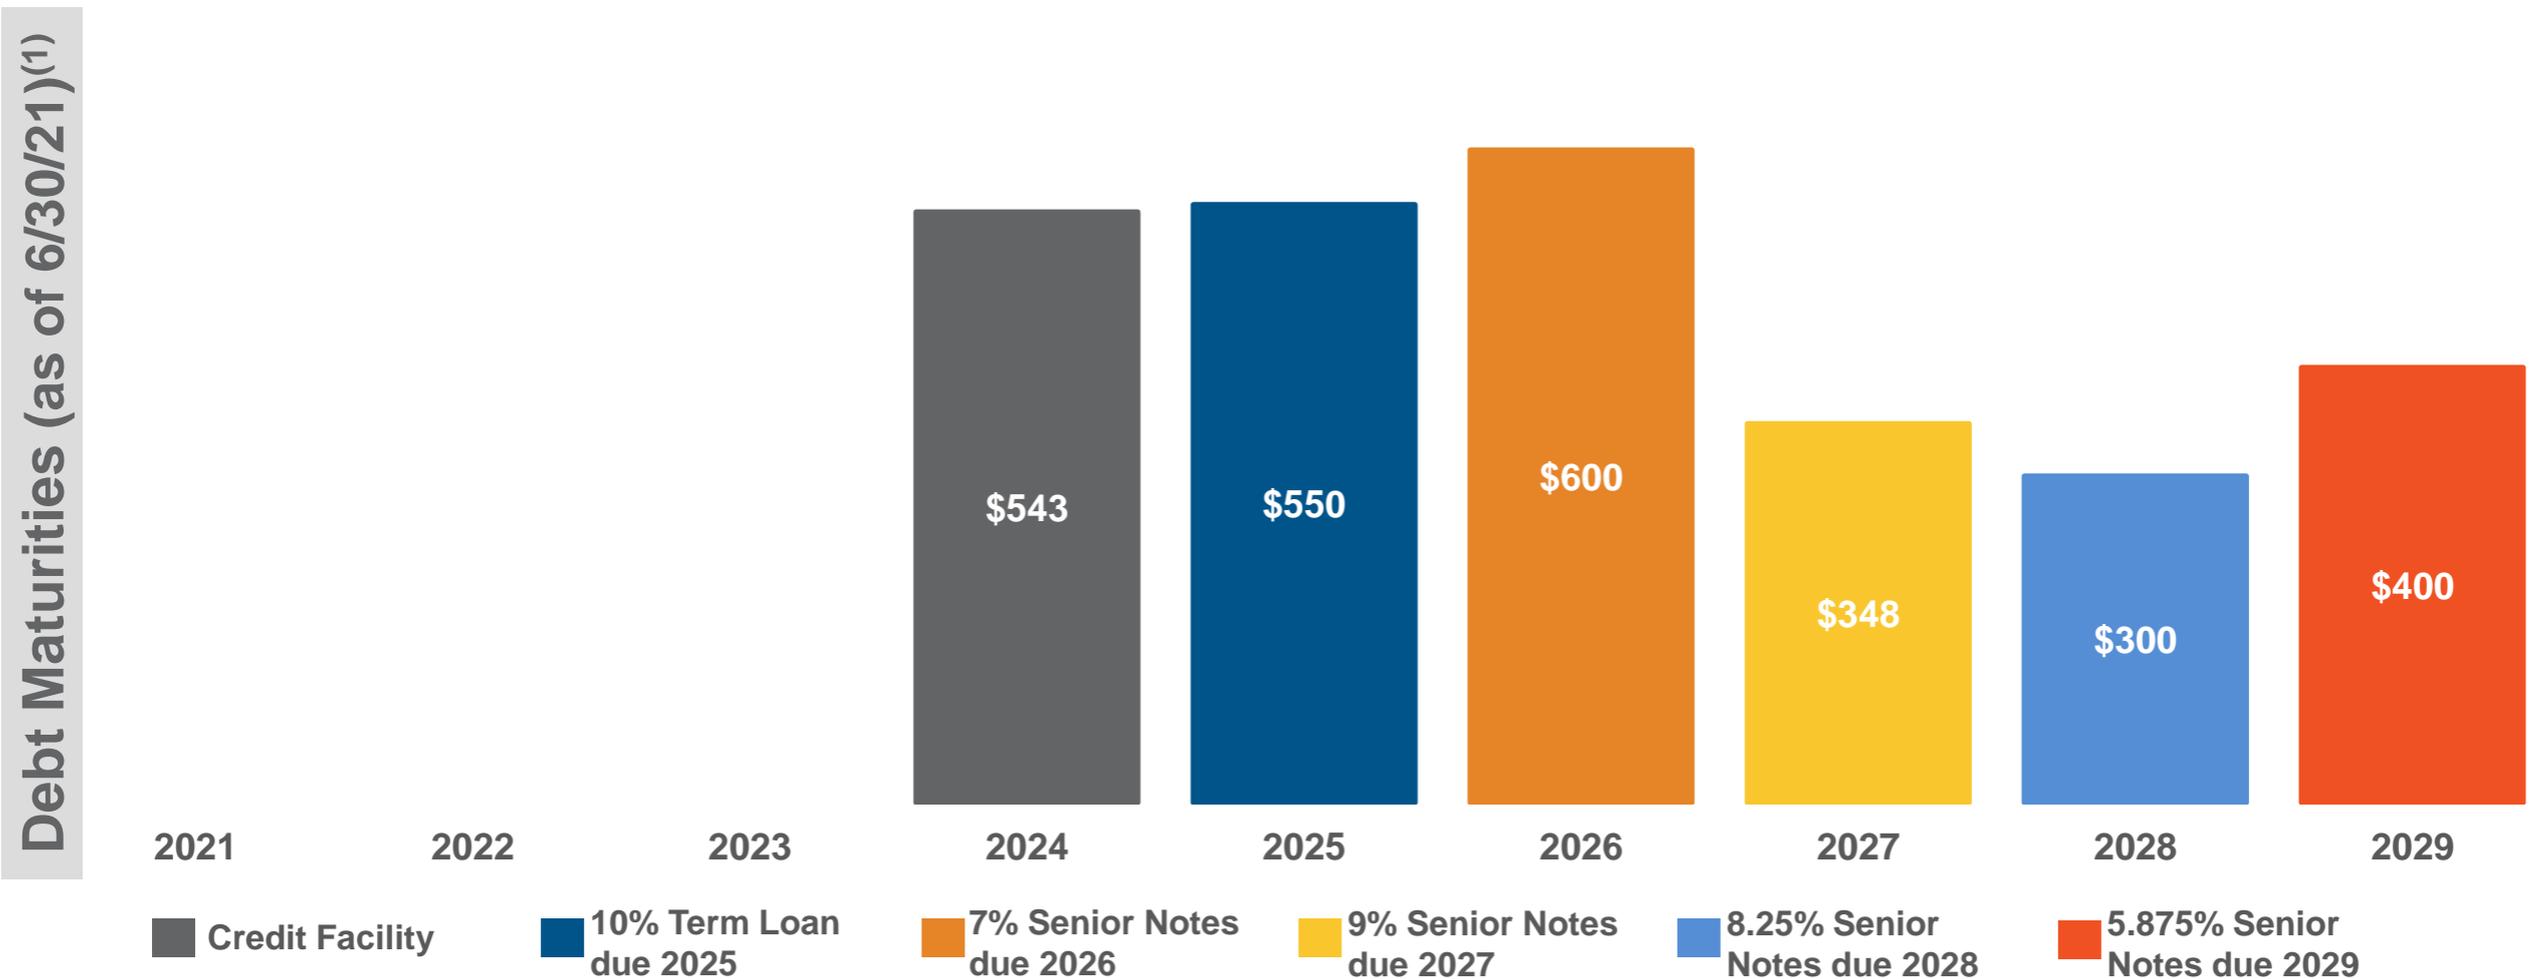

1) Estimated basis differential and basis hedge gain/(loss) MTM based on pricing as of 6/30/2021.

# Low Risk Capital Structure and Maturity Profile

- Weighted average maturity profile of > 5 years
- No debt maturities until Q2 2024
- Strong liquidity position of > \$1.15 billion
- Borrowing base of \$1.85 billion
- Long-term leverage target of < 2.0x

1) Principal amount only.

# Ascent Offers a Unique Value Proposition

Commitment to ESG and Responsible Operations

Strong Macro Environment

Sustainable Size and Scale

Leading Cost Structure

Fastest Return of Capital

Consistent Free Cash Flow Generation

Strong and Improving Balance Sheet

# Appendix

# Second Quarter 2021 Results & 2021 Annual Guidance

## Second Quarter 2021 Results

<b>Production (bcfe/d)</b>	<b>1.95</b>
% Natural Gas	91%
<b>Operating Expenses (\$/mcf)</b>	
LOE	\$0.12
GP&T	1.33
Taxes Other than Income	0.06
G&A <sup>(1)</sup>	0.07

Total Operating Expenses \$1.58

**Adj. EBITDAX (\$mm) \$231**

### CAPEX Incurred (\$mm)

Drilling & Completions	\$134
Land	9
Capitalized Interest	13

Total CAPEX Incurred \$156

**Free Cash Flow (\$mm) \$38**

### Operations

Operated Rigs	4
Wells Spud	23
Wells Completed	17
Wells TIL'd	26
Average Lateral Length of Wells TIL'd	12,247'
Drilling, Completion & Facility Cost (per lat. ft.)	\$546

## Full-Year 2021 Guidance

<b>Total Production (bcfe/d)</b>	<b>2.00</b>
% Natural Gas	90% – 92%
<b>Operating Expenses (\$/mcf)</b>	<b>\$1.50 – \$1.55</b>
<b>CAPEX Incurred (\$mm)<sup>(2)</sup></b>	<b>\$550 – \$600</b>
<b>Free Cash Flow (\$mm)</b>	<b>\$100 – \$150</b>

### Operations / Well Counts

Operated Rigs	3 – 4
Wells Spud	60 – 65
Wells TIL'd	65 – 70
Average Lateral Length of TILs	13,000'
Drilling, Completion & Facility Cost (per lat. ft.)	\$550 – \$575

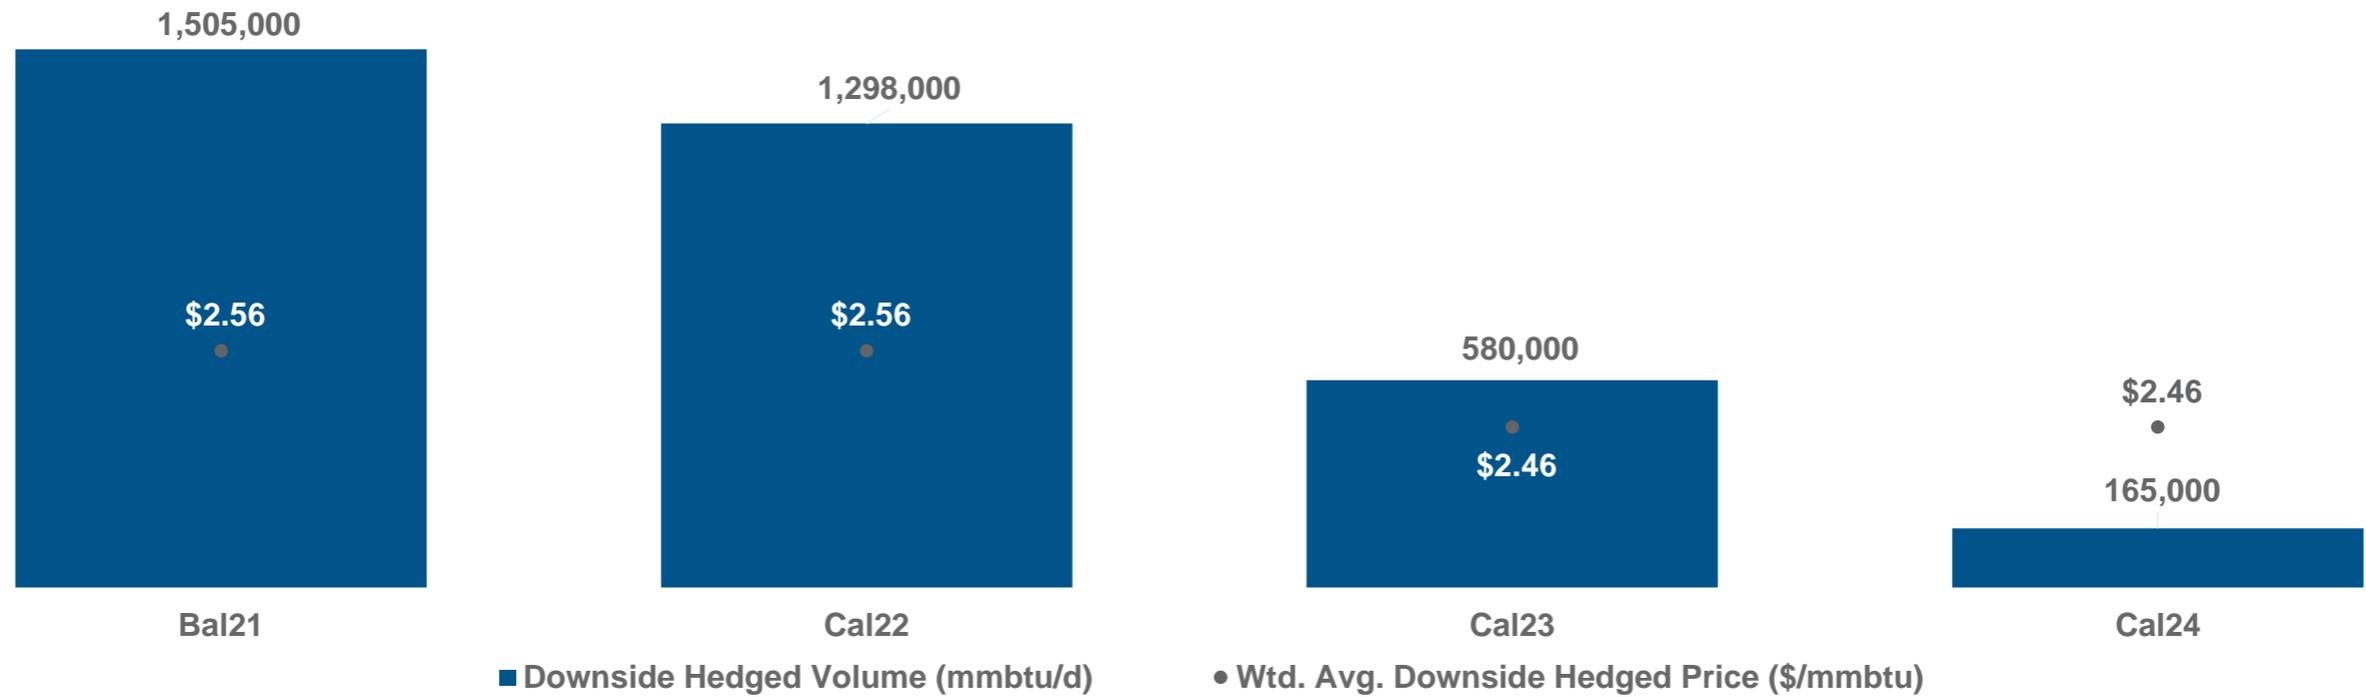

1) Excludes stock-based compensation expense.

2) Excludes capitalized interest.

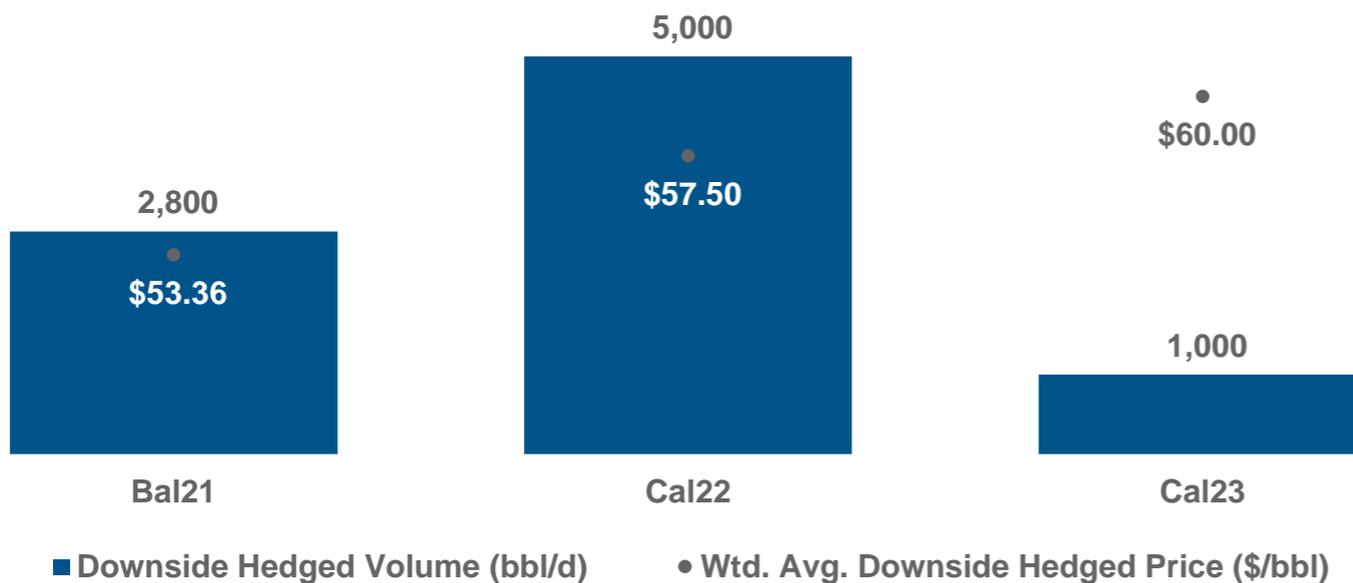

# Hedge Book Supports Sustainable Free Cash Flow

## Natural Gas

## Crude

## NGLs and Basis

### Propane

Year	Volume (bbl/d)	Wtd. Avg. Price (\$/bbl)
Bal21	4,200	\$27.12
Cal22	3,000	\$26.48

### Basis

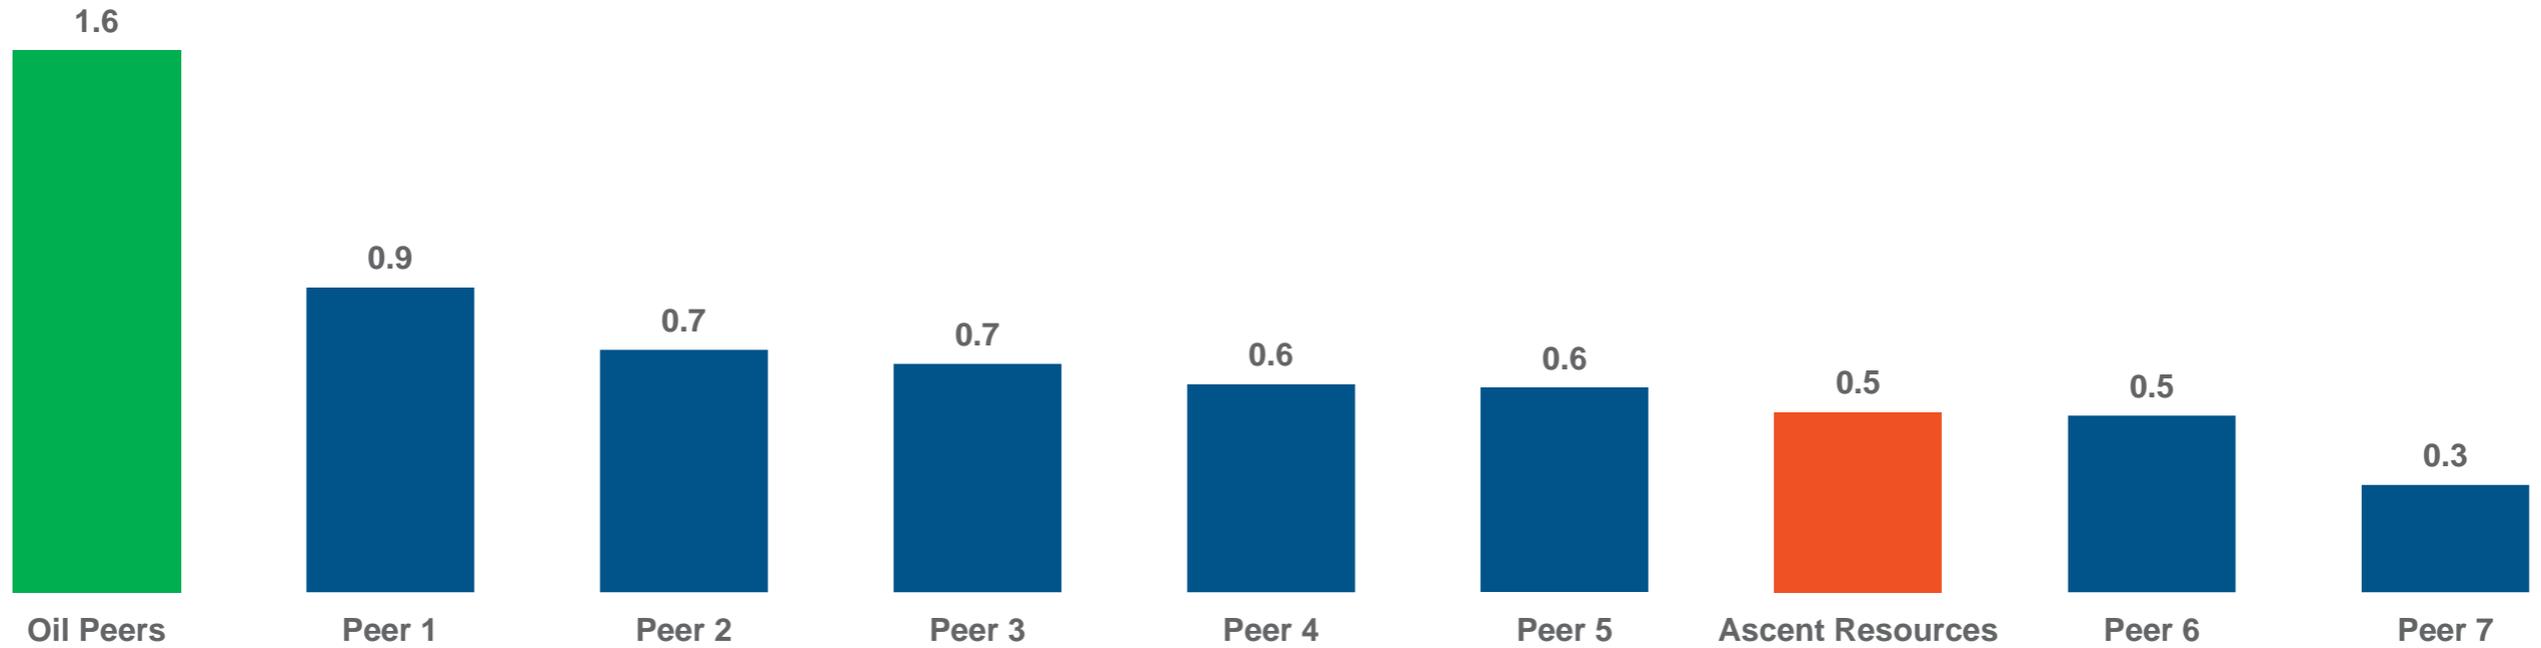

Year	Volume (mmtbu/d)	Wtd. Avg. Diff (\$/mmbtu)
Bal21	530,000	(\$0.26)
Cal22	513,000	(\$0.28)
Cal23	190,000	(\$0.19)

Note: Current hedge position as of 6/30/2021. Since inception, we have generated \$558 million of realized hedge gains.

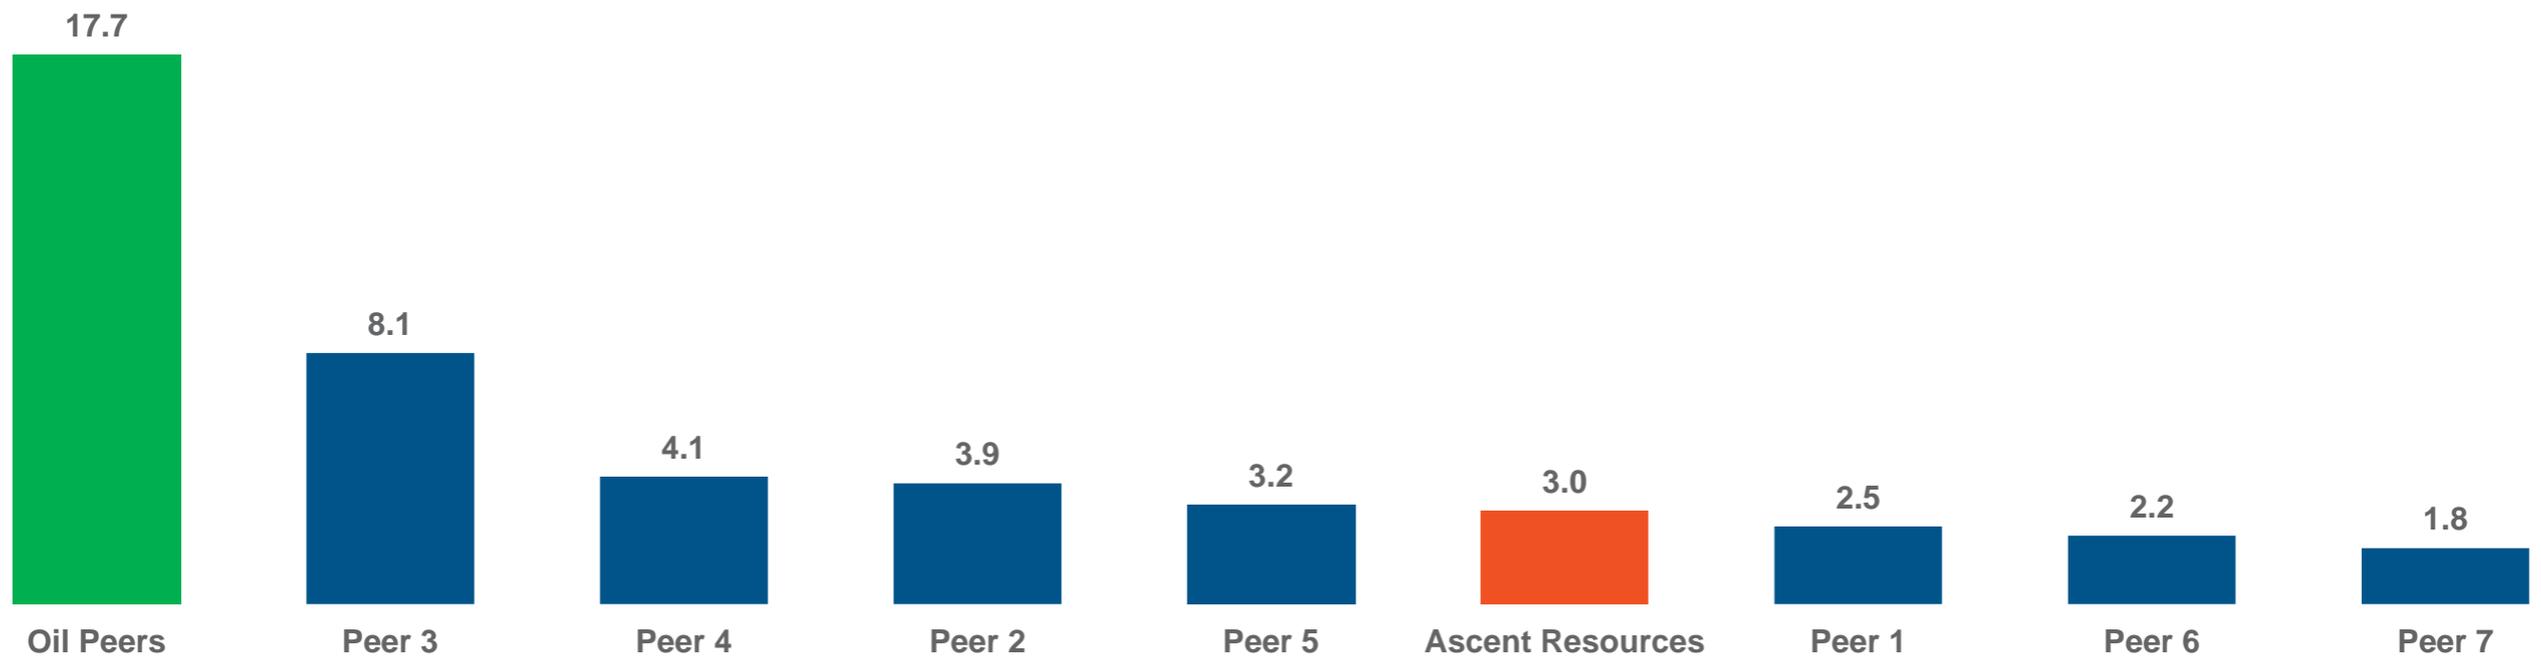

# Natural Gas Provides Path to a Sustainable Future

Total GHG Emission (mm tons CO<sub>2</sub>e)

GHG Intensity (tons CO<sub>2</sub>e / MBoe)

Source: M.J. Bradley & Associates Benchmarking Methane and Other GHG Emissions Report (based on 2019 data).

Note: Oil peers include average of APA, CLR, CPE, CRZO, CXO, DVN, LPI, MPC, MUR, OAS, PDC, PDX, PE, SM, WLL, WPX and XEC. Peer group includes AR, CNX, COG, EQT, GPOR, RRC and SWN.

# Ascent Resources, LLC Board of Managers

Board Position	Board Member
Executive Manager	Jeffrey A. Fisher, Chairman
EMG Managers (5)	John T. Raymond, Vice Chairman Jeffrey A. Ball Laura L. Tyson Vinod V. Pillai Jeffrey C. Rawls
First Reserve Managers (2)	Alex T. Krueger, Compensation Committee Chair Barbara M. Baumann, Environment, Sustainability and Corporate Responsibility Committee Chair
Riverstone Manager (1)	E. Bartow Jones
Arcadia Manager (1)	Scott R. Mueller
Independent Managers (2)	Donald R. Sinclair Thomas R. Hix, Audit Committee Chair
